CONSTITUTION

Preamble

President Platy (Platy), a Cronos token, is the official currency of the People's Republic of Platikistan, and the Platikistani Government is responsible for ensuring its sustainable appreciation and survival.

The leaders of Platikistan are those who have pledged to act in good faith and to always take into account the interests and rights of the citizens. They must hold reasonable amounts of Platy, demonstrate enough integrity and humility, and be committed to pursuing sustainable benefits, rather than immediate ones. The paramount objective of Platikistan is to become one of the most successful micronations of the world.

Platikistan does not and shall not claim any territory of any sovereign State. However, nothing prevents it from acquiring land in the future, in accordance with the applicable laws of a given sovereign Nation.
